

John's family lived at Benwell Tower from 1867 to 1881. How far is his house from St James' Church?  
What did the area around Benwell Tower look like?  
Can you find a coal mine (pit)? A fish pond? A village? Were there any other big houses like John's?

John's family owned this factory and he managed it for most of his life. The factory made moulded glass using machines.

How many people might work in a place like this? What would working in the factory be like?

Who do you think would buy the glassware it produced?
