

# TREES IN ST JAMES' GRAVEYARD

St James' Graveyard is home to a wide variety of trees of different types, sizes and ages. As well as making the place more interesting and attractive, the trees provide shelter and food for birds, insects, lichen and other living things.

Trees look different at different times of the year. The best time to look is in the summer when you can identify trees by the shape of their leaves. Evergreens keep their leaves all year round but most trees lose their leaves in the autumn and don't grow them again until the spring. Some trees have berries and some have flowers at different times of the year. Here are some of the trees you can find in the graveyard.

## Ash

## Beech

## Elder

**Hawthorn**

**Holly**

**Horse Chestnut**

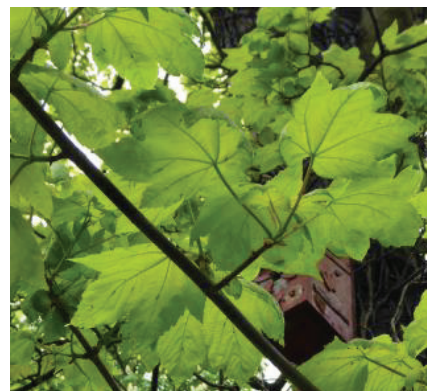

## Oak

## Poplar

## Sycamore

## Whitebeam

## Wych Elm

## Yew
